

A CASE EXAMPLE IN HUONG LONG COMMUNE

Mrs. Nguyen Thi Quy has been living in Xuan Hoa hamlet in Huong Long commune, Hue city. To be the leader of Self controlled group, she proves to work very actively and enthusiastically. There are 8 members in her household. The income mainly depends on small garden and poultry breeding. The little money is only enough for to buy food. In 2003, with the loan of VND5, 000,000, she used it for renting a fixed kiosk at Thong Market. However, she owes cost for goods. She tried hard to save up for monthly payment. In 2005, the 2nd round loan given help her to pay her debt and buy some new products and distribute them to local tailors in need of capital as well. Her proper trading suits with people's pocket. Moreover, she is good at poultry breeding. Therefore, everyone loves and believes in her very much. At the same time, they suggested that she collect amount of little money everyday from them. Through that, this way can help to reduce payment term. So, in every evening, she goes around surrounding households to collect money from them and cloths. These achieve great success in withdrawal of the group and trading at the market.

A CASE EXAMPLE: SUPPORTING THANH'S FAMILY TO BETTER THEIR LIFE

On October 6th 2009, the development community group came and gave 200 USD to Thanh's family in order to carry out in chicken-raising. As their plan before, they will focus on chicken and duck-raising. But the weather in this time is cold and rain all the time so it's not good condition for duck-raising. They're just specilized in chicken-raising only. Until now, they're all done in making hen-house and buying chicken. Due to the financial sponsor from many donations, they made a big hen-house and its capacity up to 100 chickens. In order to take all the advantages of this they bought 18 hens and 2 cocks which 2 hens are now laying 2 eggs. If this raising goes smoothly, there are so many little chicken in future. We do hope that this work wills sucessful and they can earn money to improve their life. The Thanh's family highly appreciates for caring them. They're moved to tears when received the money and they promised to take good care on raising chicken to have a better life. Next time, the development community group will come to look after their rasing and help them to find the best way in order to get more profit from raising.
